Meeting Logistics & Entertainment

Registration from 8am Friday 31st

Full & Student Members of the NZAO attending will have their CPD hours updated post this meeting by the Executive Administrator for 25 Cat 2 hours as per the NZAO CPD guidelines

Lunch and morning/afternoon teas included

WiFi will be available to all delegates throughout

AGM – Friday 30th September at 4.30pm

ERDG Dinner – Queens Wharf, on Friday 30th September at (time TBC) – please see registration form on the last page of this program

Saturday 1st October – a limited number of Premium Plus tickets are available for purchase on the registration form on the last page of this program

Refund Policy

Should you need to cancel your registration, you may reassign your registration to another person.

All cancellations and substitutions must be notified in writing to the NZAO / ERDG Administrator. Registration cancellations received in writing before and including Friday 9th September will receive a full refund less an administration charge of $50. After this date refunds will be at the discretion of the ERDG Committee.

If, for reasons beyond the control of the ERDG Committee, the Conference is cancelled, your registration fee will be refunded after deduction of expenses already incurred.

Dinner & WOW Ticket Purchases - please be advised that no refund requests will be accepted
Venue & Accommodation

AMORA Hotel - 170 Wakefield St, Te Aro, Wellington 6011 -
www.wellington.amorahotels.com

RESERVATIONS

All delegates are to book their accommodation directly with the hotel. The conference rate can be obtained by quoting the conference block code “NZAO16” at the time of booking. Reservations can be made via email (confadmin@wellington.amorahotels.com) or telephone (+64 4 473 3900). The following details will be required when making a reservation:

- Name of guests
- Dates of stay
- Conference block code – NZAO16
- Valid credit card details (card type, number, and expiry date)

CHECK IN/CHECK OUT

Check in time for all hotel guests is after 2pm. The hotel is more than happy to store the client’s bags if they arrive before this time. Check out for all hotel guests is to be completed by 11am. The hotel is happy to store bags for those guests not departing to later that day. Please advise reservations in advance if you have any specific requirements.

BOOKING DEADLINE & CANCELLATION

AMORA are holding 40 rooms for this event per day until Monday August 15th. Any booking requests received after this date will only be confirmed subject to room type availability at the time of booking and the conference rate may not apply.

Please also be aware that any cancellation of rooms made after seven days prior to the agreed arrival date will result in a cancellation fee of one nights accommodation costs per room; and for any guest that does not arrive on the specified date as detailed on their email booking confirmation, the hotel will charge you for the full amount of your accommodation booking.
## Program Outline

<table>
<thead>
<tr>
<th>Main Topic</th>
<th>Subtopics</th>
</tr>
</thead>
<tbody>
<tr>
<td>Introduction. Goals and organization</td>
<td></td>
</tr>
<tr>
<td>What are Temporomandibular disorders (TMD)?</td>
<td>Symptomatology, etiology, pathogenesis of muscle pain, role of bruxism in TMD, pathogenesis of osteoarthritis</td>
</tr>
<tr>
<td>Disc displacement disorders</td>
<td>Manifestation, etiology, progression, relation with growth (one group for each topic)</td>
</tr>
<tr>
<td>Occlusion and TMD</td>
<td>Angle Class and TMD/ TMD and head morphology / TMD and cervical posture / TMD and general body posture</td>
</tr>
<tr>
<td>Occlusion: Not only teeth contacts, Not only Angle Class</td>
<td>Neurophysiology and neurocognition</td>
</tr>
<tr>
<td>TMDs and orofacial pain</td>
<td></td>
</tr>
<tr>
<td>Diagnosis of TMD</td>
<td>Diagnostic principles. Diagnostic pitfall, Cognitive errors</td>
</tr>
<tr>
<td>The Diagnostic Criteria for TMD (DC/TMD) A critical appraisal</td>
<td>Participants should recognize values and shortcomings of the DC/TMD diagnostic criteria</td>
</tr>
<tr>
<td>TMD comorbidities</td>
<td>Neck-shoulder pain, headache, fibromyalgia</td>
</tr>
</tbody>
</table>

Group workshop discussion and reporting will follow all topics and the relevant reading material will be provided pre conference to all registered delegates electronically at the end of August early September.
Symposium Facilitator

Professor emeritus Sandro Palla has retired from his position at the University of Zurich, where he directed the Clinic of Masticatory Disorders, Removable Prosthodontics, and Special Care Dentistry between 1981 and 2009. 2007 - 2009 he served a second term as Academic Director of the Center for Dental Medicine and from 2008-2009 he was Vice Dean for Dentistry of the Medical Faculty of the University of Zurich. He was appointed as Visiting Professor at the Nippon University of Tokyo, the University of Sydney and the University of Otago.

Professor Palla was the initiator of a multidisciplinary course on pain (Mantelstudium Schmerz) for medical and dental students at the University of Zurich.

He was president of several national and international societies, among them the Swiss Association for the Study of Pain, the European Academy of Craniomandibular Disorders, The Neuroscience and the Prosthodontic Groups of the International Association of Dental Research. He is Associate Editor of the Journal of Orofacial Pain & Headache.

Professor Palla’s scientific interests are in orofacial pain, in particular masticatory muscle pain, temporomandibular joint biomechanics, TMJ imaging, esthetics and removable prosthodontics. He has authored numerous scientific papers and book chapters on diagnosis and therapy of orofacial pain and craniomandibular disorders and related topics as well as on removable prosthodontics.

He has lectured extensively in Europe, the Middle East, the United States, South America, Australia, Japan, New Zealand and Taiwan on these topics.
Associate Facilitator

Mauro Farella is Professor and Chair of Orthodontics, Director of the Postgraduate Programme in Orthodontics (Doctorate in Clinical Dentistry) and Associate Dean Postgraduate Studies at the University of Otago, New Zealand. He holds a DDS Degree (University of Naples), a Specialist Degree in Orthodontics (University of Naples), a PhD in Oral Sciences (University of Reggio Calabria), a Specialist Degree in Medical Statistics (University of Milan), and the "Venia Legendi" in Switzerland (University of Zürich). He has also been awarded Certified Membership of the European Board of Orthodontists (Helsinki, Finland).

His current research interests include craniofacial biology, jaw function, and biomechanics in orthodontics. In addition, Mauro Farella is a widely recognized expert in orofacial muscles, bruxism, and temporomandibular joint research.

Mauro Farella has published numerous (>100) original articles in peer-reviewed international journals. He has been on the Editorial Board of the “Journal of Dental Research”, the “Journal of Oral Rehabilitation”. He has lectured around the world and is an active member of the NZAO, the NZDA, the European Orthodontic Society, the Australian and New Zealand Association for Orofacial Pain (ANZAOP), the Society for Oral Physiology (Store Kro), the New Zealand Biomouth, Neuroscience Otago, and Genetics Otago. Mauro Farella is on the Management Committee of the Research Theme “Pain@otago” and of the Center for Bioengineering at the University of Otago.

He is the recipient of several national and international research prizes, such as the Alan Docking Award from the International Association for Dental Research, and the Sir John Walsh Award, to acknowledge the excellence achieved in dental research.
Final Year Post Graduate Presenters

Azza Al-Ani who grew up in Christchurch, completed her dental degree at Otago University. She worked for a year as a dental house surgeon at Auckland Hospital, and then as a dental officer for two years at Westmead Hospital (Sydney). She returned to Dunedin, where she worked part-time in private practice and as a Professional Practice Fellow at the Faculty of Dentistry, before studying toward a Doctorate of Clinical Dentistry (Orthodontics).

Azza has been researching the genetic and environmental factors behind hypodontia. Last year, Azza gave an oral presentation on quality of life and hypodontia, at the EOS Congress in Venice; and on genetic syndromes associated with the long face at the IADR ANZ Scientific Meeting in Dunedin. She has been involved in the publication of articles in the New Zealand Dental Journal, and one in the American Journal of Medical Genetics on an osteosclerotic form of Robinow Syndrome. Azza loves overseas travel, and tries to keep up with her husband mountain biking.

Catherine Carleton hails from the deep south. She completed her Bachelor of Dental Surgery at the University of Otago in 2010. The following two years, she worked as a dental house surgeon at Waikato Hospital and did a short stint in private practice in Warkworth. After travelling around Europe for 6 months, she returned to Dunedin to study towards a Doctorate of Clinical Dentistry (Orthodontics).

Catherine has been researching the effect of antioxidants on jaw defects in a zebrafish model. In 2015, Catherine gave an oral presentation on the preliminary findings of her research at the IADR ANZ Scientific Meeting in Dunedin. Some of the preliminary findings have been published in an article in Redox Biology in the same year. Catherine enjoys reading historical fiction and spending time with the love of her life, her dog Agnes.
Gareth Benic, originally from Wanganui, studied dentistry at the University of Otago. He worked in private dental practice in Wanganui and Melbourne before returning to New Zealand to study towards a Doctor in Clinical Dentistry (Orthodontics). As an undergraduate, Gareth was exposed to the promise of probiotic research being conducted through BLIS Technologies on campus.

On his return to Otago, he decided to conduct a RCT to see whether probiotics could influence the orthodontic biofilm and help prevent its unwanted effects in patients. Gareth is a keen sportsman and gets out for activities most days, work (and weather) permitting!

Yana Itskovich was born in Russia, grew up in Auckland and finished her dental training in Australia in 2008. She worked for five years in both the public and private sectors. She also spent time treating children in Vietnam as a volunteer dentist before moving to Dunedin to study orthodontics. She gained her FRACDS in general dentistry in 2013.

As part of her research project, Yana is working under the supervision of Professor Murray Meikle, to develop a novel bone scaffold model. In addition to this, Yana gave an oral presentation on the success of autotransplantation at the ASO meeting in Hobart (Tasmania). She is the co-author of a paper on this topic. Yana loves being back in New Zealand.
Registration Form

NZAO September 2016 ERDG Symposium
Friday & Saturday – 30th September & 1st October – AMORA Hotel Wellington
