

Specialist Orthodontist | Canberra | Full-Time

Tuggeranong Orthodontic Centre is a 4-surgery practice and has a real legacy in Canberra. Having been in operation for over 30 years it forms part of Maven Dental.

The opportunity

There's a lot to do in this full-time role, currently consisting of 4 days per week. You'll be taking over a full book of wonderfully loyal patients with the opportunity to build further upon that.

You'll be practicing all round orthodontics and patients really vary, from the straightforward to complex cases. A large majority of patients come to the practice from word of mouth referrals and we see generations of the same families who have now become part of the Maven Dental family!

You will play an active part in keeping the cogs turning in the practice and you'll understand that being a specialist isn't an easy role [we completely understand this too!] but you'll be up for the challenge anyway. You'll have the comfort in knowing that you have the support & backing of one of the most successful dental groups in the business behind you every step of the way.

About You

We're looking for a seasoned orthodontist with at least 5 years' experience and you'll be the type of orthodontist who is warm, confident and approachable. People feel comfortable telling you their oral concerns, and you approach them through a positive, wellness-focused lens and a real sense of optimism.

What about the area?

The practice is in a great spot. Tuggeranong has a population of just over 85,000 and is a family-oriented suburb with easy access to arterial roads, shopping centres, ample walking trails and nature reserves. The region is only a 20min drive to Canberra City, 1.5 hours to the South Coast, and 2.5 hours to the snow fields. Residents enjoy a sense of easy living knowing that everything they require is within an arm's reach.

About Maven Dental Group

At Maven Dental we believe passionately that everyone deserves the very best dental care, so we've built one of the country's largest dental health organisations consisting of over 100 general and specialist dental practices.

We put our people first, not just our patients. We recognise that our success is a direct reflection of our people, so we've created an environment that facilitates professional development, knowledge exchange and learning. Our people can confidently deliver exceptional service and care as experts in the dental industry.

After all, we don't think of ourselves as traditional dentists. Instead, we see ourselves as our patient's partner in wellness, for life.

How does this all sound?

If we've piqued your interest, and you love making people smile, then we welcome you to apply today!
